

## APEX IT GROUP *Press Release*

***Apex IT Group (Pennsauken, NJ) Acquires Steuber Web Services (Delaware County, Pennsylvania)***

***June 2009, for Immediate Release***

***Apex IT Group a leader in providing Managed & Professional IT Services to small and midsize companies, announced the recent acquisition of Steuber Web Services, Inc. a leading national provider of website and email hosting, colocation, virtual private servers and more to small and midsize companies in the United States.***

“This acquisition is an excellent strategic decision for our company” says George Mach, CEO of Apex IT Group. With the recent buzz and shift in our industry to cloud based computing this will now allow Apex IT Group to position itself in the market place as a leader in providing Hosted Services to our customers. Our service offerings will now include Managed Website Hosting Services including Website Design, Hosted Virtual Private Servers, Better Colocation Facilities, Hosted Microsoft® Exchange, SharePoint and more. Apex IT Group continues to expand by offering small and midsize companies with **Flat Rate, Pro-Active IT Solutions**. In addition to the acquisition, Apex IT Group welcomes Elizabeth McLaughlin, former President of Steuber Web Services to head our new Hosted Services Division. Elizabeth brings years of experience and has played a vital role in providing Managed Hosting Services technical consulting, web and application development. Apex IT Group would like to thank our customers and employees for our continued success.”

### ***About Apex IT Group***

Apex IT Group is an innovative new breed of technology consultants which provides proven results. Apex offers managed service programs to help clients grow to their fullest potential. We identify and implement proactive solutions to cut costs, improve productivity and avoid downtime—so you can focus on your core business.

Unlike many other technology consultants, we take the time to understand each client’s business and how technology fits into that business, so we can objectively recommend solutions that address real strategic and operational needs. What’s more, we take pride in our ability to offer small- to mid-sized companies in the Delaware Valley and beyond access to technology solutions that once were only available to Fortune 500 companies—solutions that offer excellent ROI as well as reliable performance for maximum peace of mind.
